ONE CLICK BACKLIT LIGHTING DESIGN

Lumaire Magnetic

- Frame thickness is just 15mm (single or double-sided)
- Easy changeable image print

One step, that's what you need to get your Lumaire Magnetic LED panel ready. The product is one of the most popular advertising solutions for a reason. The magnet inside the frame seals the sheets in a second. Unseal them even quicker. Place the suction cup on the surface and replace the backlit (the print image inside the panel) instantly as many times as you need for your advertising purposes.

ULTRA THIN-PERFECT BASIC DESIGN

Lumaire Basic

- Frame thickness is just 8mm
- Single or double sided, curved and custom shape options

Ultra thin LED sheet Lumaire Basic radiates class. The thinnest LED panel in the market is of 8 mm thickness only. These acrylic light panels scatter the light to perfection, making it irresistible to take the eyes off of the lighting solution. Different design options enable custom application. Perfectly simple customization reveals limitless possibilities to emphasize your individuality.
